Wartsila, Engie sign tentative agreement on small-scale LNG

Finnish engineering firm Wartsila and French energy major Engie have signed a memorandum of understanding (MoU) to jointly develop technologies for the small-scale LNG business, including bunkering, LNG-to-power and distribution to islands and other remote areas.

"This cooperation is an important step towards Wartsila's goal of growing our presence in the small- to medium-scale LNG terminal business," Wartsila VP for LNG solutions Alexandre Eykerman said.
