Hoegh LNG planning to order at least one new FSRU

Hoegh LNG has signed a letter of intent for as many as four new 170,000 cm floating storage regasification units (FSRUs) from Samsung Heavy Industries, the Bermuda-based company said this week.

Under the non-binding contract, Hoegh LNG will order at least one vessel by mid-January. All units would have 750 MMcf/d (7.75 Bcm/year, 5.6 mtpa of LNG) of regasification capacity and would be delivered in 2019 and 2020.
