Petronas LNG train nine starts commercial operations

The 3.6 mtpa ninth train at the Petronas LNG complex in Bintulu, Malaysia started commercial operations earlier this month, project partner JX Nippon Oil & Energy has said.

Train nine, which gives Petronas LNG a combined 29.3 mtpa, had shipped a commissioning cargo four months ago. The train is operated by Petronas, with JX Nippon Oil & Energy having acquired a 10% interest in the project last June.
