Delfin taps Golar for ‘next generation’ FLNG technology

Delfin Midstream took a step forwards with its Delfin LNG project, America's first FLNG scheme, by roping Golar LNG to supply its proprietary floating liquefaction technology at the site in the Gulf of Mexico.

A joint development agreement signed this week will facilitate the financing, marketing, construction, development and operation of the project, to be situated approximately 80 km off the coast of Cameron Parish in Louisiana.

The deal will see Golar provide ...
