In the run up to the New Year, Russian President Vladimir Putin sought to transfer the ownership of various gas assets in Western Siberia to Russian companies with immediate effect.

Elsewhere, Danish wind developer Ørsted took final investment decision (FID) on the 2.9 GW Hornsea 3 offshore wind farm in the UK North Sea and the UK government announced plans to speed up CCUS projects and establish a competitive market by 2030.

Tokyo Gas secure a major upstream investment in the US via a deal to acquire Quantum Energy Partners portfolio company Rockcliff Energy for USD 2.7 billion.

In the meantime, here's your weekly catch up on the stories that made the news this week:
