US feed gas 101 – Part 1, Finding and arranging feed gas to US LNG plants

Houston, get ready for a buying spree. Four US LNG export projects have now taken FID and many others are pushing towards that goal. Buyers of feed for these plants will soon descend upon the American gas market. Many will include firms who have rarely, if ever, operated in this kind of procurement environment. In this three-part series, Gas Strategies shines a spotlight on the how's and where's of procuring feed gas in the US. This article, Part 1, focuses on successfully finding and arranging feed gas.
