BP signs SPA for full volume of Mozambique FLNG project

BP has signed a supply and purchase agreement (SPA) for the entire volume of LNG produced at the proposed 3.4 mtpa Coral South floating liquefaction project being developed by Eni offshore Mozambique, BP said this week.

The 20-year contract, signed with the Area 4 concession partners Eni, Galp, Kogas and ENH is conditional upon the project receiving a final investment decision (FID), which is expected by the end of 2016.
