LNG exports from Gladstone, Australia, hit six-month low in October

Exports of LNG from Gladstone in Queensland fell 9% month on month in October to 1.43 million mt, the lowest monthly amount exported from the Australian port since April 2016, the Gladstone Ports Corporation (GPC) said this week.

Gladstone is home to Santos's GLNG facility – a joint venture between Origin Energy and ConocoPhillips Australia Pacific – and BG Group's Queensland Curtis LNG.
