IEA in fresh push to ramp up carbon capture development

The International Energy Agency is bringing together energy leaders from around the world in a bid to ramp up development of carbon capture, utilisation and storage (CCUS) technologies.

The Paris-based agency chaired a high-level meeting this week with energy ministers and delegates from Canada, China, Norway, the US, Australia and the European Commission plus industry chiefs and other stakeholders.

The countries represented in the discussion host 19 of the ...
