‘If you provide electricity, living standards improve’: Konstantinos Mitropoulos, CEO, Blue Sea Power

Blue Sea Power has a vision: to help a handful of Greek islands, which are not connected to the mainland’s power grid, decarbonise through small-scale LNG-to-power. Konstantinos Mitropoulos, the company’s CEO, is keen to take this vision beyond Greece’s waters – and in the process help improve living standards in energy-poor countries.
